

Re-cycled Newspaper PENCIL production line.

The smallest Investment business one can think of.

We are promoting saving Trees and we should not like de-forestation. Wood is becoming scarce by each day and PENCIL usually is wood which we must try to save.

Paper is made from TREES, some Award Wapsi Gang kinds of characters can argue like this. BUT we suggest to make pencils from **Used** NEWS papers which even after making pencils are to go back to nature only.

This pencils can be made with or without Plastic Shrink wrap cover. And that means can be made absolutely eco-friendly pencil or with use of Minimum possible plastics which is used for the decoration. {Colors and Designs}

Small Investor can start this business, smaller people can get employment and ladies can do this business and does not need hard work or labor for Pencil Making.

About Rs. 5 lac worth of machinery can make about 10000 to 20000 Pencils in one shift. [This is CHINA Standard; in India, this quantity can be a small doubt]

Shed requirement is also is smaller. Say about 500 to 600 Sq. Feet of shed can do.

Understand the costs.

<b>Possible result when run only for one shift and make 10000 Pcs/ 8 hours.</b>	Profit / Pc	per year	Per month
Assume sales at Just Rs 2, profit can be Rs/ Pc	0.095906846	299229.4	24935.8
at Rs 2.5 / Pc	0.595906846	1859229	154936
at Rs 3 / Pc	1.095906846	3419229	284936

Please note:

12% Distribution margins accounted for  
Nice and high conversion cost accounted for  
Packing cost per pc accounted for  
And the plant and Machinery needs just 10.2 KW connected load.  
High quality pencil making costs accounted for.

**NO luck works, only hard work works.**
