

Dear Sirs,

I am Ahmedabad based consultant assisting to set up Lucrative and New projects.

Some of them to think of are as below:

- **PVC/ WPVC foamed board making** for 4 -20 mm thick in four feet wide: To replace plywood boards
- **PVC/ WPVC board 25 - 35 mm thick** in Three feet wide: To replace SOLID DOOR Application.
- **WPVC Solid Door frames:** To replace wooden door frames
- **PVC laminate making:** To replace tradition al Laminates / MICA.
- **WPVC Hollow Doors and Solid frames:** To replace Wooden Doors and frames
- **SPC Flooring:** To replace Wooden / laminate / Vinyl flooring and Marble / Granite flooring & tiles

Also

PLASTIC Construction board [Can be used for 80 to 100 times] to replace Shuttering Boards
Particle board making
Oriented strand board making
Hollow tubular board making

AND

- **SOLAR Panel Making** [Shall be a must for each roof in INDIA in few months]
- **Sanitary napkin Making** [Highest in-demand product these days]
- **SMS Non-Woven fabric making** [For hundreds of applications to replace textiles & packaging Applications]
- **Melt Blown Fabric making** [This is filtration material for Masks and all sorts of Air/ Water/ Automotive.... Filters.]

And some more also.

We are Highly technical and professional.

Do revert in case interested.

Regards,

Kamal Shah
