

### **PVC marble Look-alike board:**

To replace Marble and Granites with PVC made boards for walls and Ceiling, is the latest trend.

With Marble and Granites, many issues as under can be avoided if PVC boards and profiles are used:

- Heavier marbles need transportation at higher costs
- They need much of re-working
- Fear of braking
- Cost

UV coating shining.

Usually, machinery worth Rs 2 Cr can make such Boards with

And to make such profiles

We need machinery worth Rs. About 1 cr. The profiles make skirtings and edges and frames.

This project also can make 1 mm thick PVC laminate sheets to replace MICA / Laminate boards.
